

The Connecticut Bar Examining Committee is committed to providing a "level playing field" for bar applicants with disabilities. If you require non-standard testing conditions on the bar examination you must complete the notification form below **and** the Petition for Non-standard Testing and return them both not later than the filing deadline. Candidates with disabilities are encouraged to file their Petitions as early as possible.

Petition forms are available the Committee's website. This Form 15 is **not** your petition for non-standard testing.

NOTIFICATION OF THE NEED FOR NON-STANDARD TESTING

I require non-standard testing conditions to enable me to sit for the February 2009 bar examination. I understand that I must file a complete Petition for Non-standard Testing by December 31, 2008.
