APPLICATIONS MUST BE RECEIVED BY: OCTOBER 10, 2015

POSTING NUMBER: 15-7000-037

Seeking an individual for development and production support of web applications. Excellent communication and team project skills and the ability to work effectively with all levels of technical and non-technical staff are required. The preferred candidate possesses strong systems analysis, architecture and design capabilities and a demonstrated ability to plan, schedule and complete IT projects. Desired skills include proficiency in the use of Visual Basic.NET, ASP.NET, Visual Studio 2008 or above, Ajax, TFS, SQL Server (TSQL and stored procedures) and HTML. Additional duties may involve creating new queries and reports and enhancing existing reports using Microsoft SQL Server and SQL Reporting Services. Your focus will be to participate in developing and/or providing production support for our interactive web-based applications.

Experience in criminal justice or attendance applications, XML, WCF, MVC, ASP MVC, .NET framework, JQuery, database construction and leading development teams is considered a PLUS.
