**NOTICE OF
MATERIALS INNOVATION AND RECYCLING AUTHORITY
(Successor to Connecticut Resources Recovery Authority)**

**REVISED CONNECTICUT SOLID WASTE SYSTEM PERMITTING,
DISPOSAL AND BILLING PROCEDURES**

Pursuant to Conn. Gen. Stat sections 1-121 and 22a-268a, the Materials Innovation and Recycling Authority (“MIRA”), successor to the Connecticut Resources Recovery Authority, hereby gives notice by publication in the Connecticut Law Journal that it intends to adopt revisions to the Connecticut Solid Waste System Permitting, Disposal and Billing Procedures at its **January 20, 2021 Board Meeting commencing at 9:30 a.m.**

MIRA offices will likely be closed to the public on January 20, 2021 due to the Corona Virus pandemic. Members of the public may attend the meeting telephonically by calling a phone number and entering a ZOOM meeting ID number and then a password. The phone number, meeting ID number and password will be provided on the Agenda for the Board Meeting, which Agenda will be posted on MIRA’s website prior to the meeting.

Interested persons may present their views at that time and/or submit written comments to the Board prior to the meeting.

The proposed revisions to the Connecticut Solid Waste System Permitting, Disposal and Billing Procedures would:

1. Add a provision specifying that MIRA may reduce a Permittee’s Guaranty of Payment (GOP) to no less than one month’s waste disposal charges provided the Permittee has maintained excellent payment history. The purpose of this revision is to provide increased flexibility of GOP options to waste haulers who have demonstrated an excellent payment history.
2. Add a provision specifying that MIRA’s waste hauling customers are allowed to deliver, on one vehicle, a consignment of recyclables originating in more than one municipality. The purpose of this revision is to provide operational flexibility to MIRA’s waste hauling customers regarding their pick-up routes for recyclables.
3. Add a provision that prohibits trucks that carry both MSW and recyclables from delivering at MIRA facilities. The purpose of this provision is to reduce contamination of recyclables from MSW that occurs in split load vehicles because the liquids associated with the MSW side of the vehicle migrate to the recycling side, mixing with the recyclables and diminishing their quality. This provision will also clarify that drivers are not to tip recycling loads at transfer stations until an inspector directs them to, in order to reduce the quantity of contaminated recyclables received at the transfer stations.
4. Eliminate the requirement that cap and lids be removed from PET and HDPE plastic containers. The purpose of this revision is to reflect what is now acceptable at MIRA’s recycling facility.

5. Add a provision requiring that loads of recyclables that are rejected must be picked up and removed the same day, and that failure to do so will result in a monetary fine. The purpose of this revision is to ensure orderly operations at the facility.
