#### **Fiscal Impact**

DSS continues to estimate the same fiscal impact as set forth in the May 18, 2021 public notice. In particular:

DSS estimates that the reimbursement decrease to the diabetic test strips and lancets on the DME fee schedule will reduce annual aggregate expenditures by approximately \$2.6 million in State Fiscal Year (SFY) 2022 and \$3.0 million in SFY 2023.

DSS estimates that the quantity limit changes to the DME, Orthotic and Prosthetic and Medical Surgical Supplies fee schedules will reduce annual aggregate expenditures by approximately \$3.0 million in SFY 2022 and \$3.3 million in SFY 2023.

#### **Compliance with Federal Access Regulations**

In accordance with federal regulations at 42 C.F.R. §§ 447.203 and 447.204, DSS is required to ensure that there is sufficient access to Medicaid services, including services where payment rates are proposed to be reduced or where payment rates

or methodologies are being restructured in a manner that may affect access to services. As described above, this SPA is making various changes to MEDS, including reducing the rates for diabetic blood glucose test strips and lancets to 100% of the current Medicare rate.

Those federal regulations also require DSS to have ongoing mechanisms for Medicaid members, providers, other stakeholders, and the public to provide DSS with feedback about access. In addition to other available procedures, anyone may send DSS comments about the potential impact of this SPA on access to the applicable MEDS services as part of the public comment process for this SPA. Contact information and the deadline for submitting public comments are listed below.

#### **Obtaining SPA Language and Submitting Comments**

The proposed SPA is posted on the DSS website at this link: <https://portal.ct.gov/DSS/Health-And-Home-Care/Medicaid-State-Plan-Amendments>. The proposed SPA may also be obtained at any DSS field office, at the Town of Vernon Social Services Department, or upon request from DSS (see below).
